RE: Export of Products in Domestic Sale

To Whom It May Concern:

Your company is purchasing goods from PPG Industries ("PPG") in a domestic transaction. However, you have asked PPG to deliver the goods so that they may ultimately be exported or sold for export or have advised us that you plan to export these goods. Accordingly, we are writing to you to confirm that you will be the exporter of record and the "U.S. Principal Party in Interest" ("USPPI") if these products are exported from the U.S.

To avoid any confusion or misunderstanding, PPG requires written confirmation that you will be responsible for all U.S. export compliance requirements. Specifically, the export declaration will be made in your name as the USPPI and under your EIN.

For our records, please complete and sign the form below and send it back to my attention via facsimile at 949-474-7269 or via email at waynec@deftfinishes.com. Do not hesitate to contact me with any questions or comments.

Best regards,

Wayne Collins
International Sales

Validity Period: 2 years from the signature date

Aerocoat Source, LLC understands that if it exports the goods it is purchasing domestically from PPG Industries, Aerocoat Source, LLC is responsible for the exportation of these products, including filing the AES declarations, determining export licensing requirements, and obtaining any necessary licensing authorizations.
