# SAFETY DATA SHEET

Date of issue 11/17/2016 (month/day/year)

Version 2

## Section 1. Chemical product and company identification

A. Product name : 02Y024CAT CURING SOLUTION COMPONENT Product code : 02Y024CAT CURING SOLUTION COMPONENT

B. Relevant identified uses of the substance or mixture and uses advised against

Product use : Industrial applications.

Use of the substance/

mixture

: Coating. Paint. Painting-related materials.

**Uses advised against**: None identified.

**C. Supplier's information**: PPG Industries (Korea) Ltd.

608-829

21, Sinseon-ro 356beon-gil, Nam-gu,

Busan, Korea

Tel: +82-51-620-8211 Korea.MSDS@ppg.com

**Emergency telephone** 

number:

**Email Address** 

: +82-51-620-8220

#### Section 2. Hazards identification

A. Hazard classification : FLAMMABLE LIQUIDS - Category 2

SKIN CORROSION/IRRITATION - Category 2

SERIOUS EYE DAMAGE/ EYE IRRITATION - Category 1 TOXIC TO REPRODUCTION (Fertility) - Category 2 TOXIC TO REPRODUCTION (Unborn child) - Category 2

SPECIFIC TARGET ORGAN TOXICITY (SINGLE EXPOSURE) (Respiratory tract

irritation) - Category 3

SPECIFIC TARGET ORGAN TOXICITY (SINGLE EXPOSURE) (Narcotic effects) -

Category 3

AQUATIC HAZARD (LONG-TERM) - Category 3

B. GHS label elements, including precautionary statements

Symbol :

Signal word : Danger

Korea (GHS) Page: 1/15

COMPONENT

**Product name 02Y024CAT CURING SOLUTION COMPONENT** 

### Section 2. Hazards identification

**Hazard statements** 

: Highly flammable liquid and vapor.

Causes serious eye damage.

Causes skin irritation.

Suspected of damaging fertility or the unborn child.

May cause respiratory irritation. May cause drowsiness or dizziness.

Harmful to aquatic life with long lasting effects.

#### **Precautionary statements**

**Prevention** 

: Obtain special instructions before use. Do not handle until all safety precautions have been read and understood. Use personal protective equipment as required. Wear protective gloves. Wear eye or face protection. Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. No smoking. Use explosion-proof electrical, ventilating, lighting and all material-handling equipment. Use only non-sparking tools. Take precautionary measures against static discharge. Keep container tightly closed. Use only outdoors or in a well-ventilated area. Avoid release to the environment. Avoid breathing vapor. Wash hands thoroughly after handling.

Response

: IF exposed or concerned: Get medical attention. IF INHALED: Remove victim to fresh air and keep at rest in a position comfortable for breathing. Call a POISON CENTER or physician if you feel unwell. IF ON SKIN (or hair): Take off immediately all contaminated clothing. Rinse skin with water or shower. IF ON SKIN: Wash with plenty of soap and water. Take off contaminated clothing. If skin irritation occurs: Get medical attention. IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Immediately call a POISON CENTER or physician.

Storage Disposal

- : Store locked up. Store in a well-ventilated place. Keep cool.
- : Dispose of contents and container in accordance with all local, regional, national and international regulations.
- C. Other hazards which do not result in

classification

: Prolonged or repeated contact may dry skin and cause irritation.

### Section 3. Composition/information on ingredients

#### CAS number/other identifiers

**CAS number** : Not applicable.

| Chemical name                              | Common name         | CAS#       | %        |
|--|---------------------|------------|----------|
| Isopropyl alcohol                          |                     | 67-63-0    | 25 - <35 |
| butan-1-ol                                 | 1-BUTANOL           | 71-36-3    | 15 -<25  |
| Fatty acids, C18-unsatd., dimers,          | POLYAMIDE           | 68082-29-1 | 15 -<25  |
| oligomeric reaction products with tall-oil |                     |            |          |
| fatty acids and triethylenetetramine       |                     |            |          |
| Methyl ethyl ketone                        | Methyl ethyl ketone | 78-93-3    | 15 -<25  |
| n-butyl acetate                            | N-BUTYL ACETATE     | 123-86-4   | 5 - <15  |
| Toluene                                    | Toluene             | 108-88-3   | 5 - <15  |

Korea (GHS) Page: 2/15

COMPONENT

**Product name 02Y024CAT CURING SOLUTION COMPONENT** 

## Section 3. Composition/information on ingredients

There are no additional ingredients present which, within the current knowledge of the supplier and in the concentrations applicable, are classified as hazardous to health or the environment and hence require reporting in this section.

Occupational exposure limits, if available, are listed in Section 8.

SUB codes represent substances without registered CAS Numbers.

#### Section 4. First aid measures

| A. Eye contact | : Check for and remove any contact lenses. Immediately flush eyes with running water | r |
|----------------|--|---|
|                | for at least 15 minutes, keeping eyelids open. Seek immediate medical attention.     |   |

- B. Skin contact
   : Remove contaminated clothing and shoes. Wash skin thoroughly with soap and water or use recognized skin cleanser. Do NOT use solvents or thinners.
- C. Inhalation : Remove to fresh air. Keep person warm and at rest. If not breathing, if breathing is irregular or if respiratory arrest occurs, provide artificial respiration or oxygen by trained personnel.
- D. Ingestion : If swallowed, seek medical advice immediately and show this container or label.
   Keep person warm and at rest. Do NOT induce vomiting.
- E. Notes to physicianIn case of inhalation of decomposition products in a fire, symptoms may be delayed.The exposed person may need to be kept under medical surveillance for 48 hours.

Specific treatments
Protection of first-aiders

: No specific treatment.

: No action shall be taken involving any personal risk or without suitable training. If it is suspected that fumes are still present, the rescuer should wear an appropriate mask or self-contained breathing apparatus. It may be dangerous to the person providing aid to give mouth-to-mouth resuscitation. Wash contaminated clothing thoroughly with water before removing it, or wear gloves.

See toxicological information (Section 11)

### Section 5. Fire-fighting measures

A. Extinguishing media

Suitable extinguishing

media

Unsuitable

extinguishing media

: Use dry chemical, CO<sub>2</sub>, water spray (fog) or foam.

: Do not use water jet.

B. Specific hazards arising from the chemical

: Highly flammable liquid and vapor. In a fire or if heated, a pressure increase will occur and the container may burst, with the risk of a subsequent explosion. Runoff to sewer may create fire or explosion hazard. This material is harmful to aquatic life with long lasting effects. Fire water contaminated with this material must be contained and prevented from being discharged to any waterway, sewer or drain.

Korea (GHS) Page: 3/15

COMPONENT

**Product name 02Y024CAT CURING SOLUTION COMPONENT** 

### Section 5. Fire-fighting measures

Hazardous thermal decomposition products

: Decomposition products may include the following materials: carbon dioxide carbon monoxide

nitrogen oxides

C. Special equipment for fire-fighting

: Fire-fighters should wear appropriate protective equipment and self-contained breathing apparatus (SCBA) with a full face-piece operated in positive pressure

**Fire-fighting procedures** 

: Promptly isolate the scene by removing all persons from the vicinity of the incident if there is a fire. No action shall be taken involving any personal risk or without suitable training. Move containers from fire area if this can be done without risk. Use water spray to keep fire-exposed containers cool.

#### Section 6. Accidental release measures

A. Personal precautions, protective equipment and emergency procedures : No action shall be taken involving any personal risk or without suitable training. Evacuate surrounding areas. Keep unnecessary and unprotected personnel from entering. Do not touch or walk through spilled material. Shut off all ignition sources. No flares, smoking or flames in hazard area. Do not breathe vapor or mist. Provide adequate ventilation. Wear appropriate respirator when ventilation is inadequate. Put on appropriate personal protective equipment.

B. Environmental precautions

: Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers. Inform the relevant authorities if the product has caused environmental pollution (sewers, waterways, soil or air). Water polluting material. May be harmful to the environment if released in large quantities.

#### C. Methods and materials for containment and cleaning up

Small spill

: Stop leak if without risk. Move containers from spill area. Use spark-proof tools and explosion-proof equipment. Dilute with water and mop up if water-soluble. Alternatively, or if water-insoluble, absorb with an inert dry material and place in an appropriate waste disposal container. Dispose of via a licensed waste disposal contractor.

Large spill

: Stop leak if without risk. Move containers from spill area. Use spark-proof tools and explosion-proof equipment. Approach release from upwind. Prevent entry into sewers, water courses, basements or confined areas. Wash spillages into an effluent treatment plant or proceed as follows. Contain and collect spillage with non-combustible, absorbent material e.g. sand, earth, vermiculite or diatomaceous earth and place in container for disposal according to local regulations (see Section 13). Dispose of via a licensed waste disposal contractor. Contaminated absorbent material may pose the same hazard as the spilled product. Note: see Section 1 for emergency contact information and Section 13 for waste disposal.

Korea (GHS) Page: 4/15

Date of issue 11/17/2016 (month/day/year) Version 2

Product code 02Y024CAT CURING SOLUTION

COMPONENT

**Product name 02Y024CAT CURING SOLUTION COMPONENT** 

### Section 7. Handling and storage

# A. Precautions for safe handling

- : Put on appropriate personal protective equipment (see Section 8). Eating, drinking and smoking should be prohibited in areas where this material is handled, stored and processed. Workers should wash hands and face before eating, drinking and smoking. Remove contaminated clothing and protective equipment before entering eating areas. Avoid exposure during pregnancy. Do not get in eyes or on skin or clothing. Do not ingest. Avoid breathing vapor or mist. Use only with adequate ventilation. Wear appropriate respirator when ventilation is inadequate. Do not enter storage areas and confined spaces unless adequately ventilated. Keep in the original container or an approved alternative made from a compatible material, kept tightly closed when not in use. Store and use away from heat, sparks, open flame or any other ignition source. Use explosion-proof electrical (ventilating, lighting and material handling) equipment. Use non-sparking tools. Take precautionary measures against electrostatic discharges. To avoid fire or explosion, dissipate static electricity during transfer by grounding and bonding containers and equipment before transferring material. Empty containers retain product residue and can be hazardous. Do not reuse container.
- B. Conditions for safe storage, including any incompatibilities
- : Do not store above the following temperature: 35°C (95°F). Store in accordance with local regulations. Store in a segregated and approved area. Store in original container protected from direct sunlight in a dry, cool and well-ventilated area, away from incompatible materials (see Section 10) and food and drink. Store locked up. Eliminate all ignition sources. Separate from oxidizing materials. Keep container tightly closed and sealed until ready for use. Containers that have been opened must be carefully resealed and kept upright to prevent leakage. Do not store in unlabeled containers. Use appropriate containment to avoid environmental contamination.

### Section 8. Exposure controls/personal protection

#### A. Occupational exposure limits

| Ingredient name     | Exposure limits                                |
|---------------------|--|
| Isopropyl alcohol   | Ministry of Labor (Republic of Korea, 8/2013). |
|                     | STEL: 980 mg/m³ 15 minutes.                    |
|                     | STEL: 400 ppm 15 minutes.                      |
|                     | TWA: 480 mg/m <sup>3</sup> 8 hours.            |
|                     | TWA: 200 ppm 8 hours.                          |
| butan-1-ol          | Ministry of Labor (Republic of Korea,          |
|                     | 8/2013). Absorbed through skin.                |
|                     | TWA: 60 mg/m <sup>3</sup> 8 hours.             |
|                     | TWA: 20 ppm 8 hours.                           |
| Methyl ethyl ketone | Ministry of Labor (Republic of Korea,          |
|                     | 8/2013).                                       |
|                     | STEL: 885 mg/m³ 15 minutes.                    |
|                     | STEL: 300 ppm 15 minutes.                      |
|                     | TWA: 590 mg/m <sup>3</sup> 8 hours.            |
|                     | TWA: 200 ppm 8 hours.                          |
| n-butyl acetate     | Ministry of Labor (Republic of Korea,          |
|                     | 8/2013).                                       |
|                     | STEL: 950 mg/m³ 15 minutes.                    |
|                     | STEL: 200 ppm 15 minutes.                      |
|                     |  |

Korea (GHS) Page: 5/15

COMPONENT

**Product name 02Y024CAT CURING SOLUTION COMPONENT** 

### Section 8. Exposure controls/personal protection

TWA: 710 mg/m³ 8 hours.
TWA: 150 ppm 8 hours.

Toluene

Ministry of Labor (Republic of Korea, 8/2013).

STEL: 560 mg/m³ 15 minutes. STEL: 150 ppm 15 minutes. TWA: 188 mg/m³ 8 hours. TWA: 50 ppm 8 hours.

Recommended monitoring procedures

: If this product contains ingredients with exposure limits, personal, workplace atmosphere or biological monitoring may be required to determine the effectiveness of the ventilation or other control measures and/or the necessity to use respiratory protective equipment. Reference should be made to appropriate monitoring standards. Reference to national guidance documents for methods for the determination of hazardous substances will also be required.

B. Appropriate engineering controls

: Use only with adequate ventilation. Use process enclosures, local exhaust ventilation or other engineering controls to keep worker exposure to airborne contaminants below any recommended or statutory limits. The engineering controls also need to keep gas, vapor or dust concentrations below any lower explosive limits. Use explosion-proof ventilation equipment.

**Environmental exposure controls** 

Emissions from ventilation or work process equipment should be checked to ensure they comply with the requirements of environmental protection legislation. In some cases, fume scrubbers, filters or engineering modifications to the process equipment will be necessary to reduce emissions to acceptable levels.

#### C. Personal protective equipment

**Respiratory protection** 

: Respirator selection must be based on known or anticipated exposure levels, the hazards of the product and the safe working limits of the selected respirator. If workers are exposed to concentrations above the exposure limit, they must use appropriate, certified respirators. Use a properly fitted, air-purifying or air-fed respirator complying with an approved standard if a risk assessment indicates this is necessary.

Eye protection Hand protection : Chemical splash goggles and face shield.

Chemical-resistant, impervious gloves complying with an approved standard should be worn at all times when handling chemical products if a risk assessment indicates this is necessary. Considering the parameters specified by the glove manufacturer, check during use that the gloves are still retaining their protective properties. It should be noted that the time to breakthrough for any glove material may be different for different glove manufacturers. In the case of mixtures, consisting of several substances, the protection time of the gloves cannot be accurately estimated.

**Gloves** 

: For prolonged or repeated handling, use the following type of gloves:

May be used: polyvinyl alcohol (PVA), Viton® Recommended: butyl rubber, neoprene, nitrile rubber

**Body protection** 

: Personal protective equipment for the body should be selected based on the task being performed and the risks involved and should be approved by a specialist before handling this product. When there is a risk of ignition from static electricity, wear anti-static protective clothing. For the greatest protection from static discharges, clothing should include anti-static overalls, boots and gloves.

Korea (GHS) Page: 6/15

COMPONENT

**Product name 02Y024CAT CURING SOLUTION COMPONENT** 

### Section 8. Exposure controls/personal protection

Hygiene measures

: Wash hands, forearms and face thoroughly after handling chemical products, before eating, smoking and using the lavatory and at the end of the working period.

Appropriate techniques should be used to remove potentially contaminated clothing. Wash contaminated clothing before reusing. Ensure that eyewash stations and safety showers are close to the workstation location.

### Section 9. Physical and chemical properties

A. Appearance

Physical state : Liquid.

Color : Not available.

B. Odor : Not available.

C. Odor threshold : Not available.

D. pH : Not available.

E. Melting/freezing point : Not available.

F. Boiling point/boiling : >37.78°C (>100°F)

range

G. Flash point : Closed cup: -5°C (23°F)

H. Evaporation rate : Not available.
I. Flammability (solid, gas) : Not available.
J. Lower and upper : Not available.

explosive (flammable)

limits

K. Vapor pressure : Not available.

L. Solubility : Insoluble in the following materials: cold water.

M. Vapor density : Not available.

N. Relative density : 0.83

O. Partition coefficient: n- : Not a

octanol/water

: Not available.

P. Auto-ignition : Not available.

temperature

Q. Decomposition : Not available.

temperature

**R.** Viscosity : Kinematic (40°C (104°F)): >0.21 cm<sup>2</sup>/s (>21 cSt)

S. Molecular weight : Not applicable.

### Section 10. Stability and reactivity

A. Chemical stability : The product is stable.

Possibility of hazardous reactions

: Under normal conditions of storage and use, hazardous reactions will not occur.

B. Conditions to avoid : When exposed to high temperatures may produce hazardous decomposition products.

Korea (GHS) Page: 7/15

COMPONENT

**Product name 02Y024CAT CURING SOLUTION COMPONENT** 

### Section 10. Stability and reactivity

C. Incompatible materials : Keep away from the following materials to prevent strong exothermic reactions:

oxidizing agents, strong alkalis, strong acids.

D. Hazardous : Decomposition products may include the following materials: carbon monoxide,

**decomposition products** carbon dioxide, smoke, oxides of nitrogen.

### Section 11. Toxicological information

A. Information on the likely : N

routes of exposure

: Not available.

#### Potential acute health effects

Inhalation : Can cause central nervous system (CNS) depression. May cause drowsiness or

dizziness. May cause respiratory irritation.

Ingestion : Harmful if swallowed. Can cause central nervous system (CNS) depression.

**Skin contact**: Causes skin irritation. Defatting to the skin.

**Eye contact** : Causes serious eye damage.

#### Over-exposure signs/symptoms

**Inhalation** : Adverse symptoms may include the following:

respiratory tract irritation

coughing

nausea or vomiting

headache

drowsiness/fatigue dizziness/vertigo unconsciousness reduced fetal weight increase in fetal deaths skeletal malformations

**Ingestion**: Adverse symptoms may include the following:

stomach pains reduced fetal weight increase in fetal deaths skeletal malformations

**Skin contact**: Adverse symptoms may include the following:

pain or irritation

redness dryness cracking

blistering may occur reduced fetal weight increase in fetal deaths skeletal malformations

**Eye contact** : Adverse symptoms may include the following:

pain watering redness

# B. Health hazards Acute toxicity

Korea (GHS) Page: 8/15

| Name    |            | Route of exposure | Target organs  |
|---------|------------|-------------------|----------------|
| Toluene | Category 2 | Not determined    | Not determined |

#### **Aspiration hazard**

| Name    | Result                         |
|---------|--------------------------------|
| Toluene | ASPIRATION HAZARD - Category 1 |

#### Potential chronic health effects

General: Prolonged or repeated contact can defat the skin and lead to irritation, cracking and/or

dermatitis.

Carcinogenicity
 Mutagenicity
 No known significant effects or critical hazards.
 Teratogenicity
 Suspected of damaging the unborn child.
 Developmental effects
 No known significant effects or critical hazards.

Fertility effects : Suspected of damaging fertility.

#### **Additional information**

Repeated exposure to high vapor concentrations may cause irritation of the respiratory system and permanent brain and nervous system damage. Inhalation of vapor/aerosol concentrations above the recommended exposure limits causes headaches, drowsiness and nausea and may lead to unconsciousness or death. Avoid contact with skin and clothing. Wash thoroughly after handling. Emits toxic fumes when heated.

### **Section 12. Ecological information**

| Product/ingredient name | LogPow | BCF  | Potential |
|-------------------------|--------|------|-----------|
| Isopropyl alcohol       | 0.05   | -    | low       |
| butan-1-ol              | 0.88   | -    | low       |
| Methyl ethyl ketone     | 0.29   | -    | low       |
| n-butyl acetate         | 1.78   | -    | low       |
| Toluene                 | 2.73   | 8.32 | low       |

D. Mobility in soil

Soil/water partition coefficient (Koc)

: Not available.

E. Other adverse effects

: No known significant effects or critical hazards.

## Section 13. Disposal considerations

A. Disposal methods

: The generation of waste should be avoided or minimized wherever possible. Disposal of this product, solutions and any by-products should at all times comply with the requirements of environmental protection and waste disposal legislation and any regional local authority requirements. Dispose of surplus and non-recyclable products via a licensed waste disposal contractor. Waste should not be disposed of untreated to the sewer unless fully compliant with the requirements of all authorities with jurisdiction. Waste packaging should be recycled. Incineration or landfill should only be considered when recycling is not feasible.

**B.** Disposal precautions

: This material and its container must be disposed of in a safe way. Care should be taken when handling emptied containers that have not been cleaned or rinsed out. Empty containers or liners may retain some product residues. Vapor from product residues may create a highly flammable or explosive atmosphere inside the container. Do not cut, weld or grind used containers unless they have been cleaned thoroughly internally. Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers.

### **Section 14. Transport information**

Date of issue 11/17/2016 (month/day/year) **Version 2** Product code 02Y024CAT CURING SOLUTION

COMPONENT

**Product name 02Y024CAT CURING SOLUTION COMPONENT** 

### Section 14. Transport information

#### F. Additional information

UN : None identified. **IMDG** : None identified. **IATA** : None identified.

Special precautions for user : Transport within user's premises: always transport in closed containers that are

upright and secure. Ensure that persons transporting the product know what to do in

the event of an accident or spillage.

### Section 15. Regulatory information

#### A. Regulation according to ISHA

ISHA article 37 (Harmful substances prohibited from manufacture)

: None of the components are listed.

ISHA article 38 (Harmful substances requiring

permission)

: None of the components are listed.

**Article 2 of Youth Protection Act on Substances Hazardous** 

to Youth

: It is not allowed to sell to persons under the age of 19.

#### **Exposure Limits of Chemical Substances and Physical Factors**

The following components have an OEL:

Isopropyl alcohol

butan-1-ol

Methyl ethyl ketone n-butyl acetate

Toluene

Annex 11-3 (Exposure standards established for harmful factors)

**ISHA Enforcement Regs**: None of the components are listed.

**ISHA Enforcement Regs** Annex 11-4 (Harmful factors subject to Work

**Environment** 

**Measurement)** 

12 (Hazardous

control)

ketone; Toluene; n-Butyl acetate

: The following components are listed: Isopropyl alcohol; n-Butyl alcohol; Methyl ethyl

**ISHA Enforcement Regs** Annex 12-2 (Harmful **Factors Subject to Special Health Check-up)** 

Standard of Industrial **Safety and Health Annex**  The following components are listed: Isopropyl alcohol; n-Butyl alcohol; Methyl ethyl ketone; Toluene

substances subject to

: The following components are listed: Isopropyl alcohol; n-Butyl alcohol; Methyl ethyl ketone; Toluene; n-Butyl acetate

#### B. Regulation according to Chemicals Control Act

Korea (GHS) Page: 13/15

COMPONENT

**Product name 02Y024CAT CURING SOLUTION COMPONENT** 

: Not applicable

### Section 15. Regulatory information

K-Reach Article 20

(Toxic chemicals)
K-Reach Article 27

: None of the components are listed.

(Prohibited)

K-Reach Article 27

(Restricted)

: None of the components are listed.

CSCA Article 11 (TRI)

: The following components are listed: 2-Propanol; Methyl ethyl ketone; Toluene

Korea inventory CSCA Article 39

: All components are listed or exempted.

(Accident Precaution

Chemicals)

: None of the components are listed.

#### C. <u>Dangerous Materials Safety Management Act</u>

This product is classified under the Dangerous Materials Safety Management Act.

Class Item Threshold Danger category Signal word

Class 4 - Flammable Liquid 2. Class 1 petroleums - Water- 200 L II Contact with sources of insoluble liquid ignition prohibited

D. <u>Wastes regulation</u>: Dispose of conte

: Dispose of contents and container in accordance with all local, regional, national and international regulations.

E. Regulation according to other foreign laws

Safety, health and environmental regulations specific for the product : No known specific national and/or regional regulations applicable to this product

(including its ingredients).
